# Nonlinear Processes in Geophysics

An interactive open-access journal of the European Geosciences Union

[www.nonlinear-processes-in-geophysics.net](http://www.nonlinear-processes-in-geophysics.net)

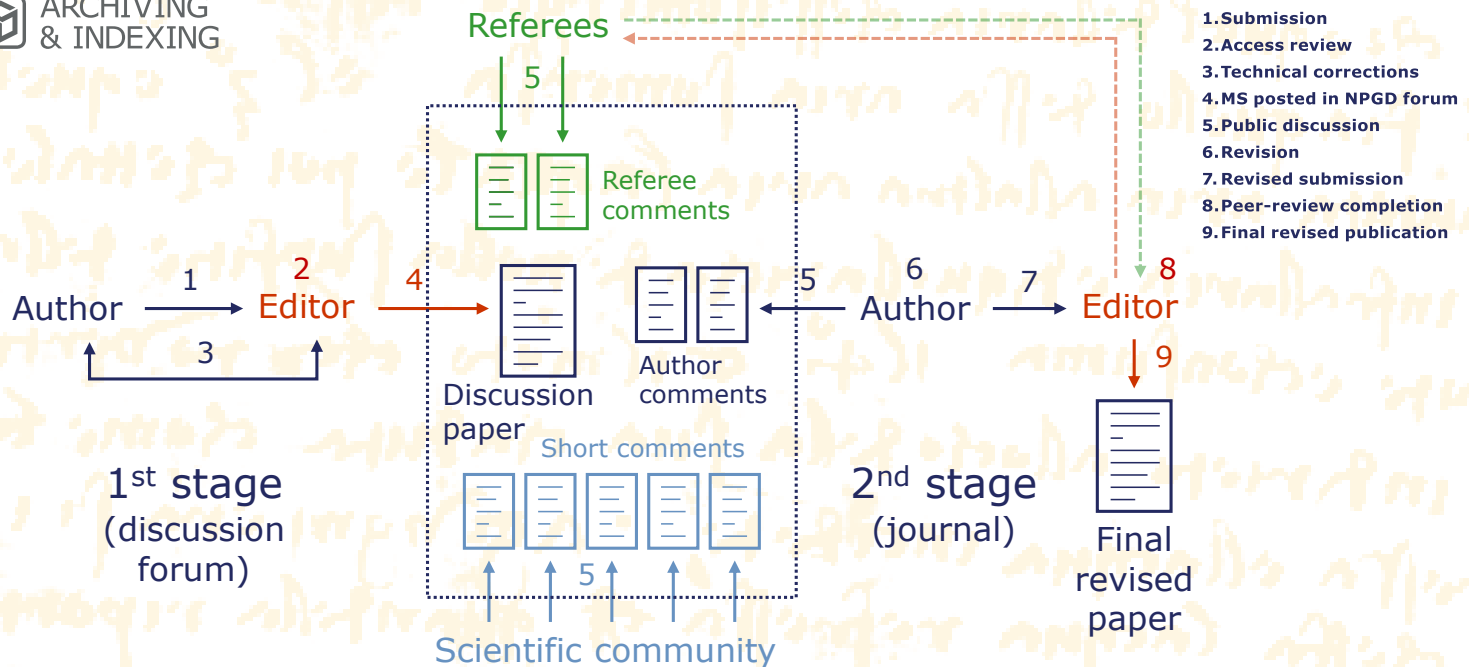

**IF: 1.129** | 171 days to publish

-  OPEN ACCESS
-  INTERACTIVE PUBLIC PEER REVIEW
-  ARTICLE LEVEL METRICS
-  MODERATE ARTICLE PROCESSING CHARGES
-  ARCHIVING & INDEXING

### Interactive Public Peer Review™

- manuscript posted in the NPG discussion forum
- public discussion by the scientific community
- open access to referee reports
- authors' revision and peer-review completion
- final journal publication – fully peer-reviewed

### Aims and scope

Nonlinear Processes in Geophysics (NPG) is an international, interdisciplinary journal for the publication of original research furthering knowledge on nonlinear processes in all branches of Earth, planetary, and solar system sciences. The editors encourage submissions that apply nonlinear analysis methods to both models and data.

The journal maintains sections for research articles, review articles, brief communications, comments and replies, and book reviews, as well as special issues.

NPG covers the following subject areas:

- solid Earth, continental surface, biogeochemistry;
- climate, atmosphere, ocean, hydrology, cryosphere, biosphere;
- ionosphere, magnetosphere, planetary science, solar science.
